NEXT GEN'ERGY CONGRESS

EDUCATE . DEBATE . INSPIRE . ACT .

OBJECTIVE

A congress organized **by young people, for young people**, with the aim of giving them the keys to understand, innovate, and **act for the energy transition**.

We want to create momentum and a pool of young people committed to our companies and beyond, who will be **ambassadors of the sector**.

The congress will aim to give and promote a **realistic image of the energy industry** by covering a wide range of technical subjects, but also cross-functional strategic subjects such as the attractiveness and retention of talent.

We want to make our **young people proud**. This is how they can best **promote the image of our sector**.

WHEN:

14-15 March, 2024

WHERE:

Salons de l'Aveyron

17 Rue de l'Aubrac, Paris, France

WHO:

300 young Europeans, professionals mainly from the energy sector and students at the end of their studies but also Young talents from key sectors such as aeronautics, construction and transport

ADDRESSED TOPICS

Energy from A to Z. Meeting demand and shaping supply
Balancing the energy Trilemma: Security, affordability, sustainability
